

LETTER OF RECOMMENDATION

Dr Rami Hamdi, PhD

Lecturer in Computing Science
AFG College with the University of Aberdeen
Doha, Qatar
rami.hamdi@afg-aberdeen.edu.qa

To Whom It May Concern

I am writing to wholeheartedly recommend Niha Salman as being one of my best computing science students. I have had the pleasure of teaching and mentoring Niha for three years in several advanced computing science courses such as artificial intelligence and principles of software engineering and have witnessed her remarkable growth and achievements firsthand.

Niha has consistently demonstrated exceptional skills in computing and a profound enthusiasm for technology. Her ability to grasp complex concepts quickly and apply them to real-world situations is truly commendable. In particular, her work on Mindful-Minis platform showcased her ability to innovate and problem-solve.

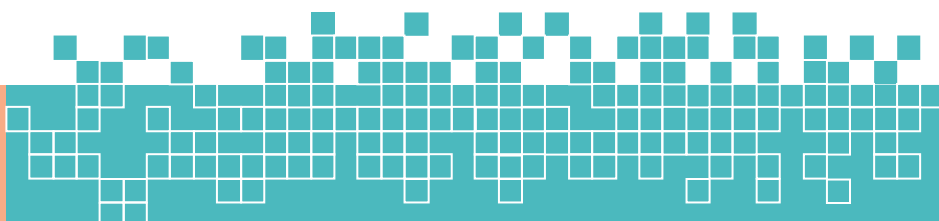

Furthermore, Niha's dedication to collaborative work and leadership qualities have been evident in group projects. She is a natural leader, often taking the initiative to guide and assist her peers, fostering a cooperative and productive work environment. Her communication skills, both verbal and written, are excellent, making her a valuable team member in any setting. Niha also displays a genuine passion for continuous learning and self-improvement. She has actively sought out additional learning opportunities specifically in the course artificial intelligence. This dedication to expanding her knowledge and skills is a testament to her commitment to the field of computing science.

In conclusion, Niha's impressive academic record, combined with her practical skills and personal attributes, make her an ideal candidate for your organisation. I am confident that she will be a valuable asset, and I strongly endorse their application.

Please feel free to contact me if you require any further information or specific examples of Niha's work and accomplishments.

Sincerely,

Dr Rami Hamdi

To whom it may concern

It is a great pleasure to write about Niha Salman who is very well-known to me since September 2021. She is one of the best students in my class. I found that Niha has a very in-depth knowledge and know-how in computer and programming language. She is very good at logic development.

Niha is an extremely talented student with excellent skills in programming. She has very good hands-on skills in the development of innovative concepts starting from ideation to all the way to implementation and testing. Niha has been a great role model for other students through her demonstrated leadership as a community leader.

She has very good communications skills in both writing and oral presentation modes. She is a good team player and takes initiative in supporting team members and can easily assume leadership when warranted. She works with and without supervision. She is a very motivated, hardworking, and intelligent individual and has huge potential to contribute both professionally and socially. I am extremely pleased to recommend her to whoever is interested in her excellent track record and skill set.

If you need additional information, please feel free to contact me. I wish her all the best for her future.

Sincerely,

Dr. Saad Kashem
Ph.D. in Robotics & Mechatronics (SUT, Australia), FHEA (UK)
Adjunct Professor in Computer Science & Engineering at Vel Tech University

To whom it may concern:

I know Ms. Niha Salman for approximately three (2) years from her BSc studies at AFG College with the University of Aberdeen. I have been able to monitor her academic development process throughout the years in the capacity of a course coordinator.

It is my honour to write recommendation letter for students with great potential in life; and Ms. Niha belongs to this very selective group of individuals. Niha is a highly motivated individual with a strong ethical foundation, something which is rare in our times. Another unique characteristics of Niha, is the very positive spirit and the goodwill that she has; this makes her a great team player.

Moreover, Niha's analytical and critical ability in combination with her mature behaviour makes her an excellent performer. She also demonstrated general adaptability, responsibility, appropriateness, extensive intelligence as well as competence. Her professionalism and attention to detail resulted in accomplishing her studies successfully.

Niha has all the qualities to make a difference: knowledge, very good organisational skills, ethics, passion and a professional attitude. Niha has also realised that nobody will give her anything for nothing thus she is a very hard working person. I think she will be a great asset for any organisations.

I remain at your service should you require any further information regarding Ms. Niha Salman. I can be reached by email: feim.blakcori@afg-aberdeen.edu.qa

Kind regards,

Feim Blakçori

Senior Lecturer in Business and Management

Business and Management Discipline

AFG College, School of Business

Dear Niha Salman

Letter of appreciation

I am writing to formally acknowledge and thank you, for the key role you played in the relicensing visit that was undertaken by the Ministry of Education and Higher Education (MoEHE) in October 2022.

We are grateful for your commitment in taking part in this process which involved attending the pre-meeting workshops and providing us with your feedback on what works well, and the areas that we could further improve on.

The feedback from the panel was very positive about all the students that they met, and they commented that you were a credit to our institution. Your input into events such as this is invaluable, and we appreciate the time that you took to prepare for and contribute to the meetings.

We hope that you found this to be a valuable experience, which provides a useful example for you to draw upon when you apply for future jobs. In making applications you may wish to highlight the following:

- Your contribution to enhancing the reputation of our institution
- Demonstration of your excellent communication skills in talking to senior representatives from a formal Government Department (MoEHE)
- Your ability to review formal organisational tools such as mission and vision statements and think about what they mean to different groups of stakeholders
- Your willingness to be part of a culturally diverse team who can collaborate together for the common good
- Your capability to work in partnership with academics and professional services staff from AFG
- Your ability to 'think on your feet' and provide examples to illustrate your points

Thank you again for your support with this activity.

Brian Buckley
Principal
